

Rotax Engine Tips

Cat.	Float Height	Air Screw	Main Jet Range	Needle Position	Main Jet Recom.
MY20 Mini	3 mm	2.0	105-115	p4	112
MY20 Micro	3 mm	2.0	105-115	p4	110

- Ensure you charge your battery, this is important for performance
- Generally if engine performance is 'flat' you are too lean on jetting
- Recommended plug Gap < 1.15 mm MY20 Micro & Mini
- MY20 Micro 85 celsius : 185 Fahrenheit
- MY20 Mini 65 celsius : 149 Fahrenheit
